EDUCATION

Universidad Tecnológica de El Salvador
• 2021 –**Present** – Computer Software Engineering

BITLAB Academy
• **2020** – I studied and specialized in the Backend area using as my main tool the most popular PHP framework known as Laravel at Bitlab Academy by Elaniin. From June to September 2020

Programa Empresarial ¡Supérate!
• **2017-2019** – 3-year scholarship specialized on English Communication, Computing and values on its students. This is ¡Supérate! Program sponsored by ADOC company.

EXPERIENCE

Software Backend Developer at Alegra — October 2023 - September 2024
- I was responsible for the development of new features and support for the Alegra platform, a software related to the accounting and financial management of small and medium-sized businesses.

PHP Engineer at Mercandu — August 2023 - October 2023
- I worked on the refactoring of the product from scratch to create a v2 of the API to be used in a new feature of the Mercandu platform.

PHP Engineer at Elaniin — Jun 2021 - October 2023
- Developed and maintenance new features and responsible for monitoring performance.
- Refactored and optimized queries to the database and existing code.

Backend Developer at Elaniin — March 2021 - Jun 2021
- I contributed to the development team by creating new products from scratch in a staff development team.
